TE PŪRONGO O NGĀ POU MATARUA | CO-DIRECTORS UPDATE

It is with mixed feelings that we deliver our final e-pānui for 2023. These are unsettling times for many and we are grateful to be able to draw on our collective strength and enduring resilience as a people, and to know that we will continue to carry forward the dreams of our tūpuna and the futures of our mokopuna. Beyond Aotearoa, we acknowledge the tremendous suffering that others are facing. Our deepest aroha goes out to the whānau and communities of Gaza - many of our NPM whānau have been involved in events and initiatives to stand in solidarity with the people of Palestine.

We are also grateful to be able to celebrate bright moments. Our lead story spotlights NPM Ruānuku Professor Linda Tuhiwai Smith who recently received the Royal Society Te Apārangi's highest research honour, the Rutherford Medal. Linda was one of NPM's founding Co-Directors. Her influence and vision is evident in NPM's first annual report in 2002/3 stating our intent:

to "ground" research in the Māori perspective, to define research problems explicitly from the Māori experience of them, and to focus members of research teams on applying their discipline-based methodologies to the resolution of those problems. Māori language, knowledge and culture together with the contribution of expert Māori and their communities in the formulation of research projects, underpin all aspects of the research.

That intent has not changed. In 2021 NPM published Te Pūtahitanga: A Tiriti-led science policy approach for Aotearoa New Zealand. It called for a policy approach that is enabled by, and responsive to, Te Tiriti o Waitangi and Mātauranga Māori, and set out how Te Tiriti offers a powerful framework for connecting systems and communities of knowledge in ways that are mutually beneficial and future focused.

In 2022 NPM also published a collective submission on the government's green paper Te Ara Paerangi: Future Pathways. Penned by some 40 Māori researchers, the submission noted that "our galvanising force is a collective ambition to realise best research, science and innovation outcomes for whānau, hapū, iwi, Māori and all communities across Aotearoa.

This year NPM hosted the International Indigenous Climate Change Research Summit and published a communiqué from the delegates emphasising the pivotal role of Indigenous voices, ideas, and actionable solutions in addressing climate change.

Our ongoing commitment is to undertake excellent Māori-led research that contributes to the future flourishing of our communities, culture and whenua as Tangata Whenua - a position from which we will not resile.

KAUPAPA MATUA

CELEBRATING A LIFETIME OF VISIONARY SCHOLARSHIP AND LEADERSHIP

With a tumultuous year drawing to a close, we are grateful to celebrate one of our own - NPM Ruānuku, Distinguished Professor Linda Tuhiwai Smith (Ngāti Awa, Ngāti Porou) CNZM FRSNZ.

Last month Royal Society Te Apārangi conferred on Linda their most prestigious award, the Rutherford Medal. The award recognises a lifetime of dedication and groundbreaking scholarship and her preeminent role in advancing education and research for Te Ao Māori. The award is the latest of many. In 2021 Linda was the first Māori scholar to be elected to the American Academy of Arts & Sciences as an International Honorary Member. Other distinguished members of the Academy include Albert Einstein, Martin Luther King, Toni Morrison and Nelson Mandela. There are more than 250 Nobel and Pulitzer Prize winners among its ranks.

Over the course of her academic career Linda has made an outsized contribution to Māori and Indigenous scholarship and advancing our research capacity and capability. Her book *Decolonizing Methodologies: Research and Indigenous Peoples* is the seminal text for Indigenous Studies. First published more than 20 years ago, it has been translated into five languages and continues to inspire research around the world, with more than 280k citations to date. Here in Aotearoa her research helped lay the foundations for kaupapa Māori education, theory and research, alongside her husband Distinguished Professor Graham Hingangaroa Smith (Ngāti Porou, Ngāi Tahu, Ngāti Apa, Ngāti Kahungunu) FRSNZ.

Linda's leadership in education and academia has also had a profound influence on the way institutions work with Māori, enabling students and researchers to transcend dominant narratives while creating their own intellectual spaces to flourish.

The very existence of NPM is testament to this, with Linda being a founding Co-Director alongside Professor Michael Walker (Whakatōhea) ONZM FRSNZ. Together they helped build NPM from the ground up, including growing the MAI Māori doctoral student network at The University of Auckland to become what is now a hugely successful national network Te Kupenga o MAI.

Last year we celebrated our 20th anniversary - and look forward to celebrating many more - thanks to the vision and commitment of Linda and others.

Kei te iho pūmanawa, e kore rawa e mimiti te reo whakamihi mō tēnei hōnore kua riro i a koe anō. Poho kererū katoa mātou o Ngā Pae o te Māramatanga. E te hīnātore o te rangahau taketake e rere nei te whakanuia me te whakamānawatia.

CHRISTMAS KŌRERO

Every Christmas we ask one of NPM Pou to tell us about Christmas at their place and this year the rākau was handed to Pouhere Kanapu Vanessa Clark.

Where will you be spending Xmas?
Mauao – Mount Maunganui. We've been holidaying there for over half of my life – first at the campground in Papamoa as little kids and then at Sun Pacific Villas opposite Tay Street Beach. It's quite the tradition that was started by my parents Tex and Tuahana Clark in the 1990s and continues with their tamariki, mokopuna, mokopuna tuarua.
Xmas 2023 edition is no different with four generations … It's a happy chaos!

What is the one Xmas kai you can't say 'no' to?
Creamed paua and fry bread. From your lips to your hips as my nana Rau would say but who cares! Also experimented over the weekend with pumpkin fry bread (tasting that is) and it is AMAZING!

What is the best Xmas present you ever got?
Guitar. I still have it but these days it is a good decoration.

What is your favourite summertime tipple?
Bubbles - any time of day!

Where is your favourite place for a summer swim?
Sunset Beach, Te Pūaha o Waikato – not so keen on the rip tides but hanging with the cuzzies on the black sand.

Where will you be going for a holiday?
Later in 2024 – I booked to walk Camino Portugues Coastal - last 100 kms from Vigo to Santiago de Compostela in Spain. Lux version of course with my sisters from other mothers!

When you are on a road trip - what are some of the top waiata on your playlist?
Sooo, definitely a mixed compilation wins any day – a healthy dose of Waiata Anthems meets Tui Teka & Dennis Marsh with all time 80s Greatest Hits (Chaka Khan, Whitney Houston, Stevie Nicks, Fleetwood Mac, Journey, Blondie, INXS, Wham, Jimmy Barnes, Renée Geyer, Prince). Is there no coming back from the 80s & 90s?

Relaxing with my mum, nana Tuahana and children Matteo and Nadia after a big feed of fish and chips in Whaingaroa - another one of my favourite places...

KANAPU

Connections | Retention | Acceleration | Reverberation

This month saw the exciting launch of Uematarau as Kanapu's response to support and grow Māori RSI leadership and participation. Uematarau will include three, six-week online wānanga series focused on mentoring grassroots Māori collectives in the early stages of their pūtaiao, rangahau or innovation aspirations. The first series begins in late January 2024. Expressions of interest are invited from grassroots Māori collectives, projects, and emerging movements. Registration is required and details can be found on our website and social media channels.
Uematarau masterclasses will also be offered throughout 2024 for all Māori interested in RSI-related mahi, whether they are in whare wānanga, other education institutions, community organisations, or government agencies.

Kanapu plans another Hui Hihiri in 2024 and further regional hui will also be offered. For Uematarau other updates on our mahi please follow Kanapu on Instagram, Facebook or our website.

Ranga wānanga members Kiwa Hammond and Hema Wihongi (standing third and fourth from left) with Kanapu & AATEA whānau New Initiatives and Upcoming Online Events for 2024.

NGĀ MANAAKITANGA | OPPORTUNITIES

Scholarship Opportunity: Whariki Research

An opportunity exists for a Māori Master's student at Te Rōpū Whāriki, Massey University to undertake a thesis as a part of the Marsden project 'Rangatiratanga and online media: Understanding how Māori create, shape, experience and share our worlds.'

Applicants will have an interest in online media and Indigenous audience research, and a background in relevant social science disciplines such as media studies, kaupapa Māori, Māori studies, public health and sociology or other related areas will be helpful. The successful applicant will receive a tax-free stipend of $22,000 and fees for 12 months. It is hoped the appointment will be made by March 2024 and the successful applicant will be part of the research team for the duration of 12 months.

Application deadline: 20 December 2023, 5pm.
